Connecting Employers and Jobseekers Through a Common Language – Skills

WHAT IS TalentNEO?

TalentNEO connects companies and jobseekers in NE Ohio using WorkKeys® assessments to articulate and quantify cognitive workplace skills. Driven by business and supported by multiple stakeholders, TalentNEO promotes and supports employers' use of WorkKeys skills scores in their hiring process to increase applicant pool size, improve retention rates, and reduce costs. TalentNEO aims to expand employment opportunities for jobseekers who have the required skills but lack the educational credentials or experience traditionally used to screen job applicants.

WHAT IS SKILLS-BASED HIRING?

TalentNEO uses WorkKeys as a validated reference for both the candidate's current skill levels and their ability to effectively learn on the job. It's an additional tool that can be used to predict a candidate's ability to successfully do the job, especially since this is not always immediately apparent through education levels and resumes. TalentNEO uses objective and validated measures of workplace skills for jobs across all levels from entry to executive.

SKILLS-BASED HIRING WORKS FOR EMPLOYERS

25-75% Reduction in turnover

50-70% Reduction in time-to-hire

70% Reduction in cost-to-hire

50% Reduction in time-to-train

WHAT ARE WORKKEYS® ASSESSMENTS?

WorkKeys assessments were created by ACT—the makers of the college entrance exam. WorkKeys assess real world, workplace skills needed for most jobs. Job seekers can register to take proctored WorkKeys assessments at one of several local locations. Visit ACT for more information about WorkKeys assessments: <http://www.act.org/content/act/en/products-and-services/workforce-solutions/act-workkeys.html>.

WHICH ASSESSMENTS ARE UTILIZED?

Extensive research and data from nearly 20,000 occupations has identified three foundational skills essential to success in most jobs:

- Applied Mathematics: applying mathematical reasoning to work-related problems.
- Locating Information: using information taken from workplace graphics such as diagrams, floor plans, charts, and graphs.
- Reading for Information: reading and understanding work-related instructions and policies.

TalentNEO makes other assessments available to meet your needs including Applied Technology and Workplace Observation.
